**IT2408 - Software Testing & Quality Controlling**

**Assignment 02 (Take Home Assignment)**

**Complete following two tasks and upload your mind map and the test case document as a zip folder into the given submission link. Rename your folder in the format of "your Index Number_Assignment02"**

**Task 1**

Prepare a mind map including all the functionalities that you identified in the demo application which was given in the practical Lab sheet. You should include all the sub fields of each functionality that you identified as a checklist.

**Task 02**

Prepare the Test case document. Use the test case template which is given in the Moodle. For each test case create a new sheet in the excel workbook.
